

How to know charge head of pump

Rainfine (Dalian) Irrigation Co.,Ltd.

Comment:

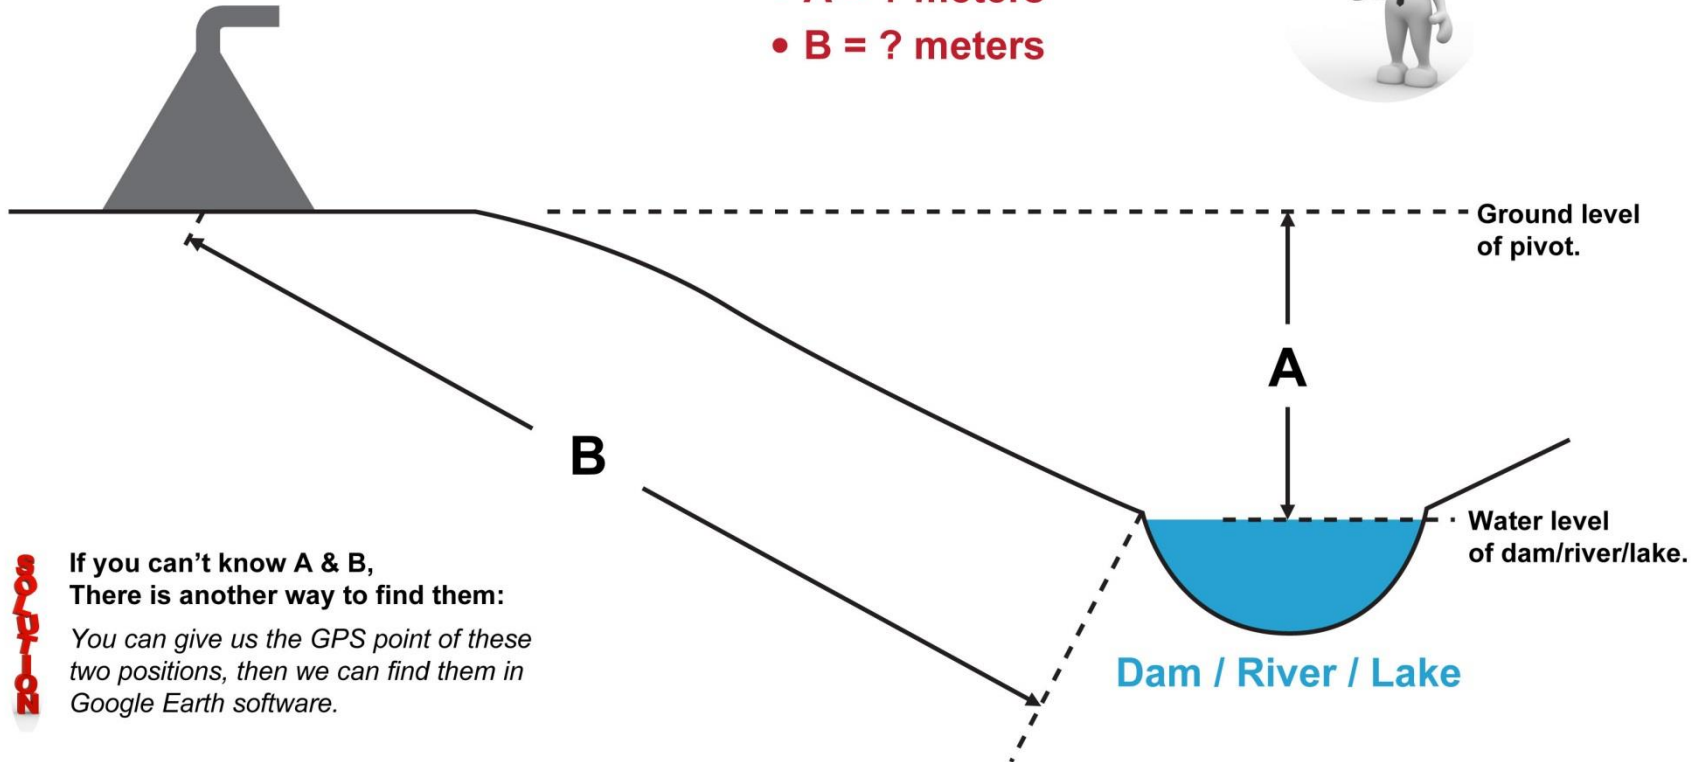

How to know charge head of pump?

Some data is very important for choosing the pump. Please let us know:

- **A = ? meters**
- **B = ? meters**

Rainfine Pivot

SOLUTION
If you can't know A & B,
There is another way to find them:

You can give us the GPS point of these two positions, then we can find them in Google Earth software.

All the data is only for your reference. The final data is subject to the actual survey.

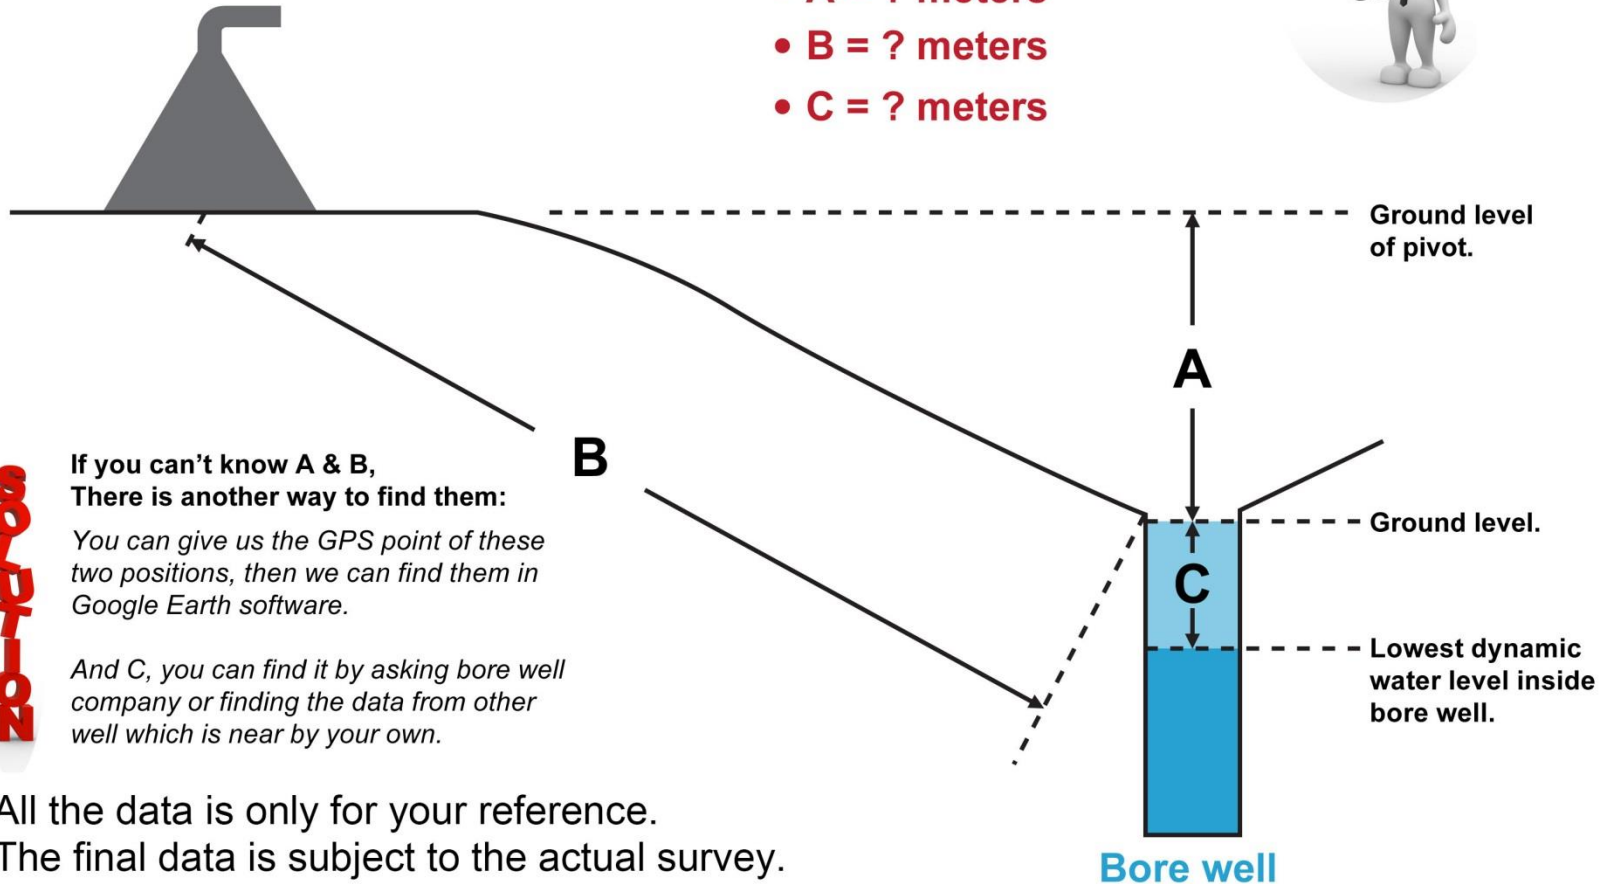

How to know charge head of pump?

Some data is very important for choosing the pump. Please let us know:

- **A = ? meters**
- **B = ? meters**
- **C = ? meters**

Rainfine Pivot

**If you can't know A & B,
There is another way to find them:**

You can give us the GPS point of these two positions, then we can find them in Google Earth software.

And C, you can find it by asking bore well company or finding the data from other well which is near by your own.

SOLUTION

All the data is only for your reference.
The final data is subject to the actual survey.
